Crowdsourcing

What is Crowdsourcing

- **Crowdsourcing** is a specific sourcing model in which individuals or organizations use contributions from internet users to obtain needed services or ideas
- One of the most well known crowdsourcing platforms worldwide is www.upwork.com Examples in Denmark include www.haandvaerker.dk
- Crowdsourcing in the form of idea competitions or innovation contests provides a way for organizations to learn beyond what their "base of minds" of employees provides

UpWork

Kunde

Inden længe blev jeg ringet op af en rigtig hjælpsom medarbejder fra Ageras, som hjalp mig med at beskrive, præcis hvilke faglige kompetencer jeg søgte hos en bogholder. Kort tid efter ringede tre forskellige fagfolk inden for regnskab, som alle stod klar til et uforpligtende møde.

Lasse Staal, Moodi ApS

Partner

Dansk Revision Viborg har haft stor glæde af at have Ageras som samarbejdspartner. Vi har fået mange gode og spændende kunder igennem Ageras. Ageras søger hele tiden for, at vi bliver matchet med relevante kunder igennem kyndig rådgivning. Senest har vi fået tilknyttet en optimeringskonsulent, som hjælper os med at stå endnu skarpere. Vi er meget tilfreds med den personlige kontakt og service, som Ageras leverer - de er en stor hjælp for vores virksomhed

Per Tang, Partner, Dansk Revision - Viborg

Crowdfunding aka Commercial Litigation Finance

What is Crowdfunding

- **Crowdfunding** is the practice of funding a project or venture by raising monetary contributions from a large number of people
- Examples of the most well known Crowdfunding platforms are www.Kickstarter.com and www.indiegogo.com
- In 2015, it was estimated that worldwide over USD 34B was raised this way
- Crowdfunding is generally based on three types of actors:
 - the project initiator who proposes the idea and/or project to be funded
 - individuals or groups who support the idea
 - a moderating organization (the "platform") that brings the parties together to launch the idea
- **Litigation funding**, also known as legal financing enables a party to litigate or arbitrate without having to pay for it, whether because they are unable to pay for it or because they do not want to

Crowdjustice

LOCATION: UK

INFO:

- Founded 2015 - 11 employees in London & New York
- Launched by former attorney from Linklaters
- Donations based Crowdfunding platform for consumers and companies
- Helps raise funds, gather support and increase public awareness for legal cases
- Cost: 6% to the crowdfunding site and 1,7% + 20 pence for payment processing
- Politically agnostic/neutral
- Raised ~USD 2,5M for 150 cases
- ~90% of cases hit funding needs

URL: <https://www.crowdjustice.org/>

- CrowdJustice does some due diligence to ensure none of the parties to the lawsuit are subject to any kind of national or international sanctions (such as Securities and Exchange Commission violations, federal or international court matters) and verifies that the case in question is under active litigation by a licensed attorney.

Blogging

What is a blog

- A **blog** is a discussion or informational website consisting of text entries ("posts")
- Blogging (writing posts) can be written by a large numbers of authors and are sometimes professionally edited. Blogs from newspapers, other media outlets, universities, think tanks, advocacy groups and similar institutions account for an increasing quantity of blog traffic.

Blogging by lawyers

- Lawyers have historically been reluctant to use blogs or write posts – i.e. to share their insights and knowledge with fellow lawyers – e.g. their opinion on a specific court ruling etc.
- However, this is changing – in the US it is becoming increasingly popular for lawyers to “blog”. Today 60% of law firms w. 500+ employees have their own blog and 81 percent of the Am Law 200 are using blogs as part of their marketing efforts
- Casetext has built a community w. over 350.000 unique users / lawyers per month
- All blogs and comments are stored on the “Casetext Communities” platform for easy future access
- Top 100 Legal Blog sites: http://blog.feedspot.com/legal_law_blogs/

Denmark:

- Total number of Social Media users in percent of total number of Internet users: 69,9% (2016).
- This means that ~70% of lawyers use one or more social media tools (Facebook, LinkedIn, Twitter, Messenger, Instagram, blogs,.....)

Forecasting Estimating Legal Fees

What is Forecasting

- **Forecasting** is the process of making predictions of the future based on past and present data and most commonly by analysis of trends.
- Risk and uncertainty are central to forecasting and prediction; it is generally considered good practice to indicate the degree of uncertainty attaching to forecasts.
- The data used (past and present) for forecasting must be up to date in order for the forecast to be as accurate as possible

Forecast.it - Web based Estimation Platform

LOCATION: Denmark

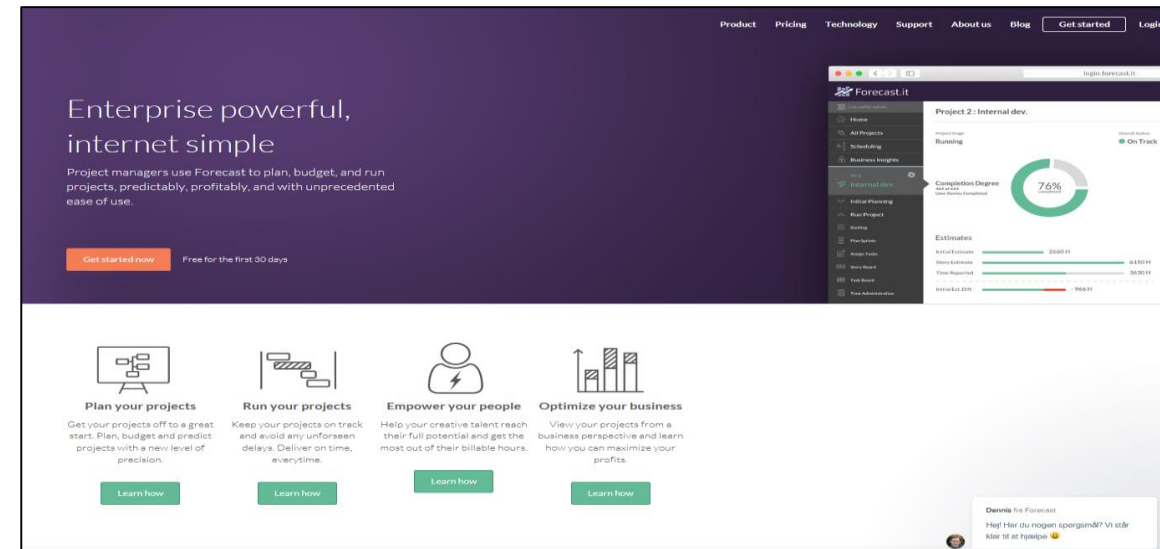

URL: <http://forecast.it>

INFO:

- Founded 2016 – 11 - 50 employees
- Create predictability in pricing
- Forecast.it use AI and Machine Learning to constantly improve the quality of your estimates
- Combines anonymized data from 5.000+ projects to help you improve your estimation
- As the project develops and tasks get more specific, the system is simultaneously updated with more data. Since the machine is constantly learning how your team works, Forecast.it helps you update your project estimates.
- Using Forecast.it, companies are now planning projects with 94% accuracy!

TECHNOLOGY:

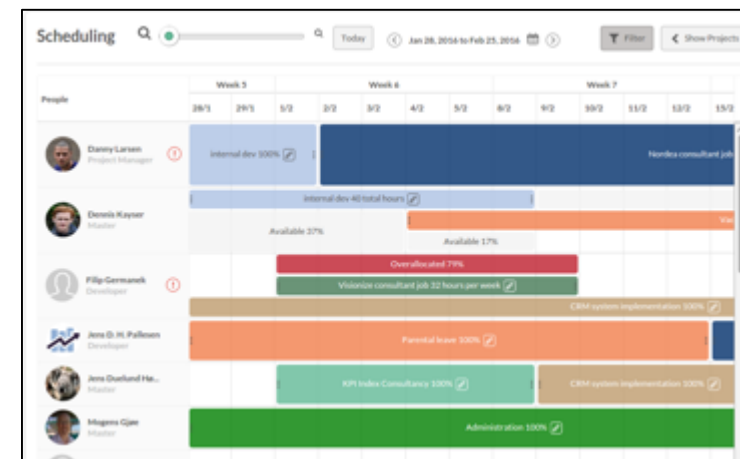

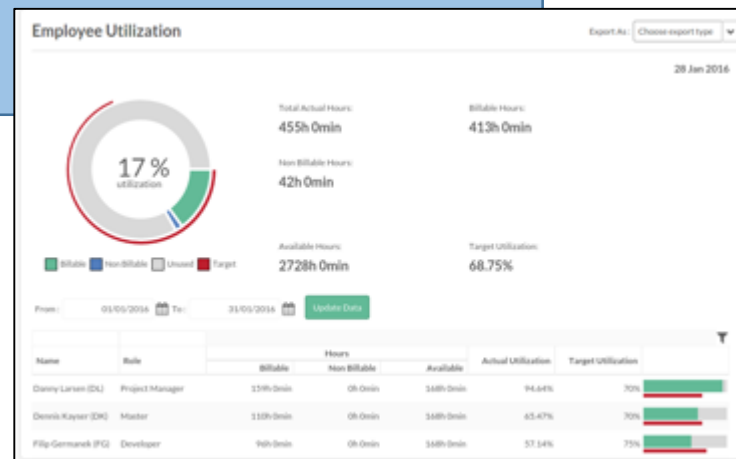

- Web based estimation platform
- AI & Machine Learning

Connect your existing project tools

Forecast works just like you and with the tools you already use. All existing information about your projects gets automatically synced to Forecast. Time tracking, tasks, todos, issues, and agile boards all get sucked into Forecast and made smarter.

Facial Expression Recognition

Facial Expression Recognition

Combining camera technology with Artificial Intelligence to recognize facial expressions and identify a persons mood, gaze, etc. – i.e. the persons general state and well-being

“Ellie is a psychologist, and a damned good one at that. Smile in a certain way, and she knows precisely what your smile means. Develop a nervous tic or tension in an eye, and she instantly picks up on it.

She listens to what you say, processes every word, works out the meaning of your pitch, your tone, your posture, everything. She is at the top of her game but, according to a new study, her greatest asset is that she is not human.”

Now take this solution to the court room to verify if the person in the witness stand tells the truth! This may not be operational today – but will likely be possible soon

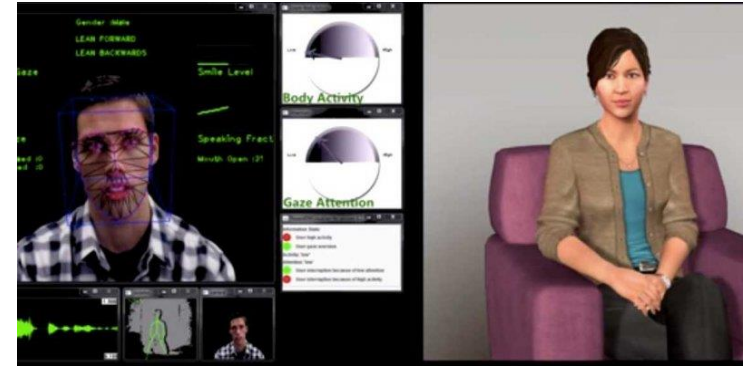

How facial recognition caught a 40-year fugitive.

Video: <https://www.youtube.com/watch?v=E68PmIE2-YE>

Data point:

A researcher at Cambridge University has collected 12 Billion facial expressions (facial data points) from people all over the world!
To be used for Facial Recognition Software

Meet Ellie – the AI Psychologist
